

TLAP Comments from CASE 2009 Conference Participants

"This project appears to be what our entire state needs. Not only will it help us meet NCLB, it will help us assess the needs of our districts. Please continue to fund this project!" Superintendent / Principal

*"We need to continue the program for the good of our state and students!"
Principal*

"I feel that if time and effort is put into the creating of standards and the teaching of its curriculum, especially w/ federally mandated areas, then an assessment towards accountability should be given." Principal

"Yes, please continue. This keeps comparing - apples to apples with same assessment statewide."

"This is an essential tool for assessment that all schools will need access to." Assistant Principal

*"Great work. I appreciate the time and effort that was put in with the intent to make this assessment FREE to all so that we can meet NCLB."
Director of Academic Achievement*

*"Good info. I would like to see it developed further. Thanks"
Superintendent*

*"Funding for project must continue as CO is way behind other states on student tech assess AND the immediate feedback is most important."
Superintendent*
